Submit Reset

- 4) Fill in all mandatory fields and submit for registration.
- 5) After successful validation, a registration number will be generated with a scheme ID "AGWDC" and forwarded to SAP for Estimate preparation.

- 6) The existing process needs to be followed, from estimate preparation to work completion updation.
- 7) During the updation of release requirements, if the service is Anganwadi, then the registration will be sent to the Smart Meters team.

- 8) After Smart Meter Installation, the details will be displayed in EPCCB-AE login -> Smart Meter(Module) -> Smart Metering -> Meter Installation for approval and select the New Service Release with Smart Meters option.

Submit

- 11) Concerned AE will Fill in the mandatory service release details and submit the application. The submitted application will be ready to upload the Test Report.
- 12) If the service is other than Anganwadi, then there will be an option for the AE-Operation to select the meter type with which the service is released with as shown above. If the service is released with the smart meter, the above process will be followed, or else the existing process will be followed.
